Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed.

Two or three doses of it at the right time will save them much suffering. For sale by A. R. Fisher, Cloverport, Ky., and Kinchloe, Meador & Co., Hardinsburg, Ky.

HUSBAND AND WIFE.

The New Kentucky Law that Has Been Puzzling Lawyers Is Explained by a Newspaper.

A young girl about 32—but don't tell it wants to know something about the husband and wife bill recently passed by the Legislature, before she marries.

We have not seen the bill, but from all we have heard we gather that it means about this:

If a girl has nothing when she marries, her husband can not get any of it according to law. If he has nothing, she is entitled to her share of it while they live together, but when death "do them part," they must divide what they haven't got among the children, if there are any.

If not, it goes back to nothingness. The bill makes a woman a femme sole; or, in other words, according to law, as good as a man. She can sue and be sued, swear and be sworn at, just like a man, and chew tobacco, if she wants to, and spit on the floor. She can get drunk and come home and kick the baby in the fire and go to bed with her boots on, yell like a heathen, or vice versa, and say any number of moons she may think proper, just as long as she pays for the music.

There were quite a number of men in the Legislature that board with their wives who tried to hold on to their dead clink, but there were enough old laches and big-hearted married men to allow the women of Kentucky a show for their little ally. Now, if a woman wants to marry a man and take him to raise, she doesn't have to turn over all her property rights and become a slave.

One of our little debutantes seemed to get left one Sunday not long since, I believe some of the Guston B-iles are hard to beat, I for one find some are, and I believe that is the general complaint with the girls.

Health good, the Primary over and best of all Mr. Wm. Hays is the nominee for sheriff. It fills the heart of one and all to think we who have to pay taxes, to pay to as fine a gentleman as Mr. Rhodes. He is liked by one and all.

The entertainment at Mr. R. A. Brown's the first Sunday was greatly enjoyed by one and all who attended. The report is that one of our best beloved boys was left, but never mind, I had a talk with his best girl she talks as though the same warm feeling still lingers in her heart for him.

In consequence of winter diet and lack of open air exercise, the whole physical mechanism becomes impaired. Ayer's Sarsaparilla is the proper remedy, in the spring of the year, to strengthen the appetite, invigorate the system, and expel all impurities from the blood.

A Big Agency.

The advertising agency of N. W. Ayer & Son, of Philadelphia, is unquestionably the largest and probably the best equipped of any in the United States. It has more and larger patrons than any other, and, taking one thing with another, it is questionable whether they are not entitled to the credit of securing for their patrons better service than can be counted on from any other.

It is to be and deserves to be, a great source of pride and satisfaction to Mr. Ayer and Mr. McKinney that they have been able, while remaining in Philadelphia, to build up a larger advertising business than has ever been secured before by any advertising agency in New York or elsewhere.

After the fire at the theater last Friday night another scene came about midnight to a few persons who knew of the danger. As Chas. Hall was passing the Breckenridge Bank building he smelled gas and could hear it escaping in the building. He went and aroused the Skillman boys and when they returned the gas could be smelled a square away. From some cause the keys would not turn in the locks and the doors had to be pried open, when it was discovered that the keys were full of gas, and only needed the application of a match to cause an explosion. The gas was escaping from the stove.

BOB DYERMAN, Independent, and John H. Dyer, take \$1000 each and will pay for the same.

This is one more good Democrat added to the list.

Short Talks With Well-known People.

Col. John Powers—"I have now more than a passing interest in Holt's Bottom. I am well pleased with my recent purchase. The Smith farm, and my intention is to improve it and make a very valuable place out of it. I have owned as many as fifty farms in my time and I consider this the best one I have ever owned. I should like to live on it if it was only for a month just to get out of the reach of telegrams, letters and the busy whirl of this busy life.

W. J. Proctor—"Business is improving. We are now running our mill night and day to keep up with our orders."

Vincent Hadden—"The fruit crop is not injured near so much as was reported. All my home Beauty trees are in full bloom and I will have as good a crop of this variety as usual. There will be plenty of early apples too. Wine grapes are not out yet are just getting started to realize as much out of my orchard as I generally do."

W. M. Dittor—"My wheat looks as well as I ever saw it and I expect a good crop. There will be plenty of fruit in our bottom. The freeze was not near so bad as first reported."

J. W. Barrett—"Just say to my friends that I am a steady working Democrat that I have ever been. That I am not the least bit sore over the result and I expect to do my best for the nominees. I am now a candidate for reelection to the office of Magistrate from my district and I shall be glad to have the support of my friends for this office." The Squire has made a splendid record as Magistrate and the probabilities are that he will have no opposition for the place.

Owen Cunningham—"My school will close in May, when I expect to go into the fight and stay in it from that time on."

Michael Blain—"Have just returned from Florida where I spent a most delightful winter with my family. I have seen about Lakeland for which I paid \$120 per acre. Fifteen acres of it is set in oranges with a thousand trees which have just begun bearing. I shipped 700 boxes this year—the same trees will produce next year at the lowest estimate 3,500 boxes. Oranges sell all the way from 50 cents to \$1.25 a box on the trees. My place joins Minor Stephens, who by the way is doing splendidly and if no bad luck overtakes him he will be big rich some day."

Geo. Richardson—"My appointment to a place in Ben Johnson's office was as much of a surprise to me as it was to my friends. It came to me unasked and I thought I had never applied to Mr. Johnson for anything. I will take my place about May 15."

Alf Henness—"I am particularly interested in the civil service work now pending before Judge Bradley at Washington. I hope the deposed officer will be reinstated. I am sure it is the duty of the civil service law. It ought to extend to every branch of the government."
